

ACCESS for ELLs 2.0

WIDA Assessment Management System Overview

The WIDA Assessment Management System (WIDA AMS) is a one-stop

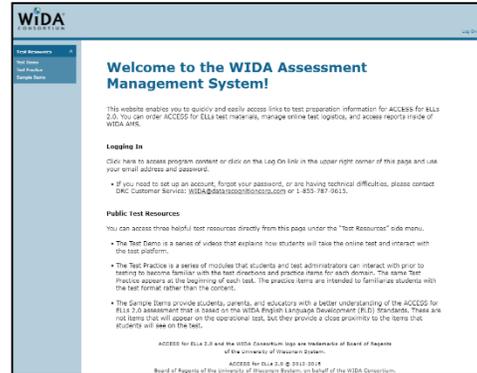

resource for the tools and information needed for ACCESS for ELLs 2.0 administration.

Test Coordinators will use the system to set up Test Administrator and Technology Coordinator accounts and to designate permissions for those users. They will also register for online testing, order any needed paper test materials (including Kindergarten and Alternate ACCESS for ELLs), set up test sessions, select needed accommodations, and view reports.

Test Administrators will use the system to view and print test tickets and test session rosters.

Technology Coordinators will use the system to view technology preparation materials such as user guides and technology web-based modules and to download testing software from the system.
